H75

H75 and H75+ Tank

The H75 is a compact drinking water unit designed to be mounted under the sink.

The H75+ was made with home coffee connoisseurs in mind; it includes a precision blending valve and in-line TDS monitor so users can customize TDS profile to their desired needs. This is a must-have feature for users who want the best tasting coffee from their home brewer or espresso machine. This is also a great feature for users who want to add some minerals to their drinking water.

Includes 3-gallon tank and your choice of Stainless-Steel or Brushed Nickel faucet. More details found on the specification sheet on the reverse side.

Our systems are 100% designed and hand built by Living Water in California.

Price H75: \$395 including tax. H75+: \$595 including tax  
Additional costs for installation
